Welcome to the MEPRS Information Portal
The MEPRS Information Portal is your gateway to MEPRS-related resources, including policy documents, learning materials, data quality surveillance tools, and much more.
The Medical Expense & Performance Reporting System (MEPRS) is the standard cost accounting system for the Military Health System (MHS), containing Tri-Service financial, personnel, and workload data from reporting medical and dental treatment facilities worldwide.
MEPRS assumes an essential role in MHS decision-making and performance evaluation by offering:
Uniform performance indicators
Expense data classified by work center
Human resource utilization data classified by work center
A standard methodology for cost assignment

Welcome to MEWACS 3!
1. Select a metric from the left.
2. Enter your search parameters in the query panel and click "Show Metric." Results will appear below the query panel.
3. To view another metric, select a different indicator from the menu. Complete any additional search fields that appear. Fields you populated for the previous query will retain the information you entered. You can leave that information as is or make changes. Hit "Show Metric" after indicating search criteria for the new metric.

***Note:**
The S2M3 Executive Summary has been standardized to reflect uniform positive/negative Z-score values across all metrics, thus positive Z-scores indicate more desirable values and negative Z-scores are less desirable values. For example, in the Pharmacy Dispensing Cost metric a negative Z-score denotes a dispensing cost that falls below the peer group average. Since in that case a negative Z-score is more desirable than a positive value, the Z-score sign reflected in the S2M3 Executive Summary has been changed to positive. The Z-score signs have been reversed for the following metrics in this Executive Summary.

- Rx Dispensing Costs
- Available FTE per Daily Occupied Day
- Inpatient Costs per RWP
- Ambulatory Costs per APG

**Parent DMIS ID 1350 is a clinic with no associated ancillary workload or expenses.

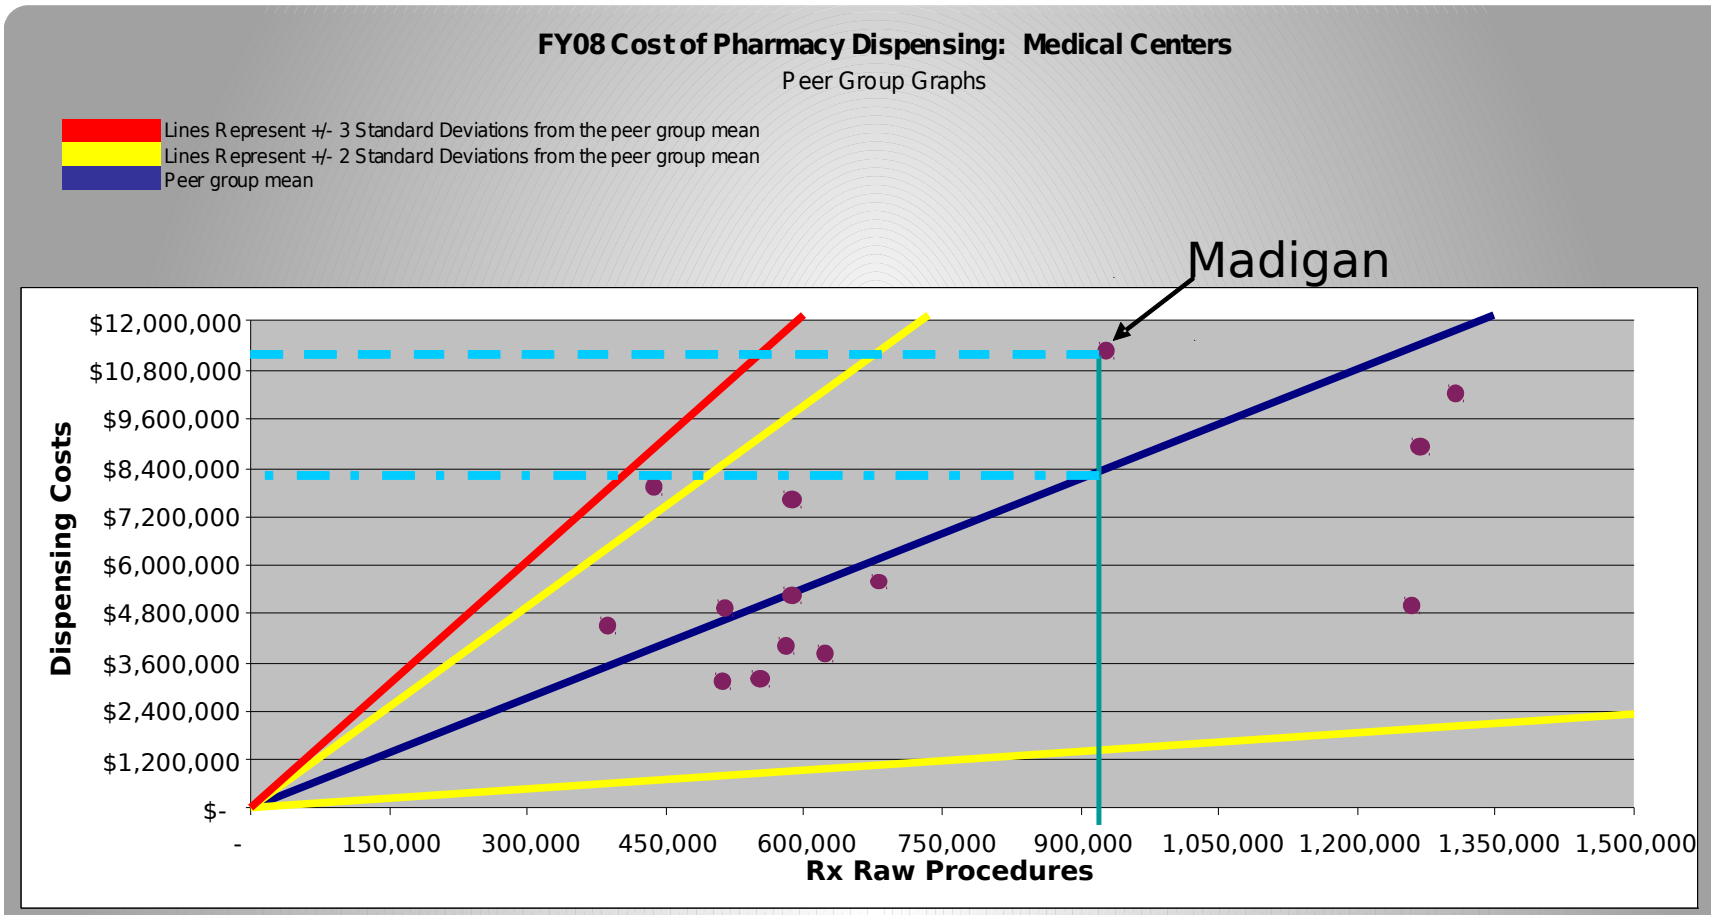
FY08 Cost of Pharmacy Dispensing Summary Statistics

Statistic	Raw Work	Rx $ Less Supply Cost	Dispensing Cost per Script
Mean:	728,551	$ 6,128,082	$ 9.03
Median:	586,136	$ 5,135,961	$ 8.07
St. Dev:	322,676	$ 2,638,729	$ 3.75

Value nearest peer group mean
MTFs within 1 Std. Deviation from the peer group mean
2 Std. Deviations above/below the peer group mean
3 Std. Deviations above/below the peer group mean

S2M3



For roughly 900,000 scripts, we would expect the expenses to be around $8,400,000 but at Madigan for the same number of scripts, the expenses are around $11,000,000.

5M2U: MEPRS Application and Data Improvement (MADI) Online
Got five minutes? Build your MEPRS knowledge at the 5M2U. The 5M2U is a series of animated tutorials designed to engage and educate the MEPRS community. Each 5M2U tutorial provides concise, targeted content on MEPRS concepts and data. Increase your MEPRS knowledge from the comfort of your workstation without interference to daily tasks.
The MEPRS Application and Data Improvement (MADI) workshop is a TMA-sponsored initiative to enhance the quality of MEPRS data. The course offers an introduction MEPRS concepts, Business Objects, and the EAS IV Repository.
Select a lesson below to begin. MADI tutorials are presented incrementally to optimize the learning experience. After completing all lessons within a module, you are eligible to take the quiz. Please note that the 5M2U does not currently offer CEU credit. However, the TMA MEPRS Program Office maintains a history of completed 5M2U training, which you can access through your MyMEPRS profile.
Orientation to MEPRS Structure and Processes
This module provides a high-level overview of MEPRS terminology and processes. Trace the path of MEPRS data elements as they travel from the Service source systems to the EAS IV Repository. Learn all about MEPRS data types, the basic MEPRS accounting structure, and cost allocation and purification.
1.1 History & Overview
1.2 MEPRS Account Structure
1.3 MEPRS Data Types
1.4 Total Expenses
1.5 Expense Assignment
1.6 Functional Guidance
Summary & Quiz
MEPRS Sources, Applications, and Data Quality Implications
Different MEPRS sources can yield different data. Find out why. This informative module outlines MEPRS source system nuances and data quality improvement measures.
1.1 MEPRS Data Sources Overview
1.2 MEPRS Data Sources Details
1.3 Monitoring Data Quality
Summary & Quiz
Business Objects Overview
Want to use the EAS IV Repository but don't know how? This learning block covers the fundamentals of Business Objects, from logging into the system to building reports. Discover how easy it is to construct, run, and edit basic
1.1 Business Objects Introduction
1.2 Launching Business Objects
1.3 Adding Objects

Welcome to the MEPRS Information Portal
The MEPRS Information Portal is your gateway to MEPRS-related resources, including policy documents, learning materials, data quality surveillance tools, and much more.
The Medical Expense & Performance Reporting System (MEPRS) is the standard cost accounting system for the Military Health System (MHS), containing Tri-Service financial, personnel, and workload data from reporting medical and dental treatment facilities worldwide.
MEPRS assumes an essential role in MHS decision-making and performance evaluation by offering:
Uniform performance indicators
Expense data classified by work center
Human resource utilization data classified by work center
A standard methodology for cost assignment

MEPRS Questions? Contact Us
Welcome to MyMEPRS
The TMA MEPRS Program Office is pleased to introduce MyMEPRS, a portal community feature allowing users to share experiences, knowledge, and resources with their peers. Additional tools and enhancements allow interaction with the site itself.
MEPRS members can take advantage of such exciting new benefits as:
MEPRS University
Learn the fundamentals of Business Objects, MEWACS, and the EAS IV Repository with this series of web-based tutorials. Demonstrations combined with audio offer query building guidance and tips for interpreting MEPRS data.
Forums
Network and share ideas with other members of the MEPRS community. Public profiles allow you to list your MEPRS experience and locate peers. Start a thread regarding a specific MEPRS topic, or join a discussion already in progress. Use the forum's private messaging capabilities for one-on-one communication. Personalize your messages with your own signature icon.
Calendars
Find out about MEPRS training, conferences, and more on the interactive calendar. Use the calendar to post events of interest to the MEPRS community or simply track your own private appointments.

5M2U: MEPRS Application and Data Improvement (MADI) Online
Got five minutes? Build your MEPRS knowledge at the 5M2U. The 5M2U is a series of animated tutorials designed to engage and educate the MEPRS community. Each 5M2U tutorial provides concise, targeted content on MEPRS concepts and data. Increase your MEPRS knowledge from the comfort of your workstation without interference to daily tasks.
The MEPRS Application and Data Improvement (MADI) workshop is a TMA-sponsored initiative to enhance the quality of MEPRS data. The course offers an introduction to MEPRS concepts, Business Objects, and the EAS IV Repository.
Select a lesson below to begin. MADI tutorials are presented incrementally to optimize the learning experience. After completing all lessons within a module, you are eligible to take the quiz. Please note that the 5M2U does not currently offer CEU credit. However, the TMA MEPRS Program Office maintains a history of completed 5M2U training, which you can access through your MyMEPRS profile.
Orientation to MEPRS Structure and Processes
This module provides a high-level overview of MEPRS terminology and processes. Trace the path of MEPRS data elements as they travel from the Service source systems to the EAS IV Repository. Learn all about MEPRS data types, the basic MEPRS accounting structure, and cost allocation and purification.

QUEST – Advanced MEPRS Course

http://www.meprs.info/quest.cfm

QUEST

A scenario based, hands-on, interactive learning experience designed to satisfy the following objectives:

- Discern the actual problem to be solved.
- Locate, understand, and utilize the arsenal of tools available.
- Build EAS IV repository queries using the appropriate classes and condition statements.
- Analyze the data for any known or hidden issues that may impact results.
- Document analysis results to include any caveats to the data that may influence decisions on how or if the data are used.

Solid Grasp of Basic MEPRS Concepts

- ☑ Understand the three different types of MEPRS data and how are they measured
- ☑ Differentiate among the 1st Level Functional Cost Codes (FCCs)
- ☑ Distinguish between a final operating account and a stepdown account
- ☑ Distinguish between purification and allocation
- ☑ Distinguish between Raw Statistical Amount and Weighted Statistical Amount

Working Knowledge of the EAS IV Repository & Business Objects

- ☑ Understand how to use the EAS IV Compatibility Matrix
- ☑ Know which classes to use for expense, personnel, and workload queries
- ☑ Comfortable constructing simple Business Objects queries
- ☑ Comfortable using wildcards and nested conditions
- ☑ Proficient with basic Slice and Dice techniques
- ☑ Comfortable exporting Business Objects data to Excel

Basic MS Excel Skills

- ☑ Insert and delete columns/rows.
- ☑ Change data format.
- ☑ Perform simple Paste Special functions.
- ☑ Perform word searches using the Find command.
- ☑ Sum a column/row of data.

QUEST - Prequisites

Scenarios include:

- MEWACS Outliers
- Six Sigma
- Productivity
- Program Costs
- Trending
- Cost per RVU
- Cost Share
